PCT First Formula Rodenticide

a PCT product

PEST | CONTROL | TECHNOLOGIES
INTERNATIONAL PTY LTD

PCT First Formula[®] all-weather rodenticide blocks are a brodifacoum based formulation featuring our enhanced blend of food-grade materials which have been demonstrated as providing superior palatability and attractiveness to rodents. They also contain a powerful bittering agent to reduce the likelihood of accidental consumption.

PCT First Formula[®] blocks come as an extruded wax block with an average weight of 15gm and are packaged in either a 2.4kg or an 8kg bucket.

• REGISTERED FOR PERIMETER FENCING APPLICATIONS

- Use indoors or outdoors
- Particularly suitable for use in damp situations
- Contains human taste deterrent to reduce likelihood of accidental consumption by children.
- One feed—fast acting

PCT First Formula[®] blocks are complemented by our other products in the Victor range. Ask one of our sales staff for details.
