- The leading general-purpose insecticide
- Low mammalian toxicity
- Low odour

INSECTIGONE*

INSECTICIDE

Surefire Insectigone is a proven performer, and a perennial favourite with Australia's Professional Pest Management Industry, since its registration in 2002. The active ingredient, Deltamethrin, is recognized as one of the most potent of the synthetic pyrethroid molecules. Being a suspension concentrate formulation enhances the safety of the applicator and the public, because there are no hydrocarbon solvents which create additional hazards. In fact, Surefire Insectigone is safe for use on export wildflowers! PCT uses the finest grade ingredients milled to an extremely small particle size, and analyses each batch for consistency and purity— your guarantee of a quality product.

Surefire Insectigone offers excellent control of these pests—

- Cockroaches
- Fleas
- Spiders
- Ants
- Silverfish
- Carpet beetles
- Clothes moths
- Bird mites
- Bed bugs
- Mosquitoes
- Houseflies
- Quarantine pests
- Bark beetle
- Borers

Surefire Insectigone is suitable for use in these areas and situations—

- Domestic,
- Commercial,
- Industrial,
- Public buildings,
- Export
- Pine logs
- wildflowers
