**DIRECTIONS FOR USE**

SITUATION	APPLICATION RATE	CRITICAL COMMENTS
<b>BROADACRE</b>		
Spray marking	100mL/100 Litres	Suitable for use with pesticide spray solutions to enable clear identification of sprayed areas.
Back packs	10mL/10 Litres	
<b>FOAM MARKERS</b>		
	25 - 50mL per 100 Litres	Higher rate for deep blue foam colour. Add direct to diluted foam marking solution.
<b>TURF</b>		
Boom application to parks, ovals and fairways.	600 - 1000mL per Hectare	For uniform appearance to green surfaces.
For greens	6 - 10mL per 100 sq. Mtr.	Use higher rate for a deep rich turf colour.
For back packs and hand applicators.	30mL per 5 Litre	

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**GENERAL INSTRUCTIONS:**

A blue liquid marking dye to assist in clearer identification of sprayed areas. A simple and cost effective system in all spraying situations to reduce costly problems resulting from over application or missed areas untreated. When used as a colouring agent with white foam markers, foam will become blue in colour to allow clearer identification. Application of PCT Reactor BLUE DYE to turf, greens and fairways imparts a deep rich colour to green surfaces and provides a uniform appearance.

**MIXING INSTRUCTIONS:**

To achieve thorough mixing premix PCT Reactor BLUE DYE with water in ratio 1:10 before addition to spraytank or knapsack. Add premix solution to spraytank first and follow with water to half fill tank. Add other ingredients under agitation followed by water to top up tank. Wash out all spraying equipment thoroughly after use as product residue can cause discolouration of subsequent sprays.

**PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:**

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

**STORAGE AND DISPOSAL:**

**KEEP OUT OF REACH OF CHILDREN.** Store in closed, original container in a well ventilated area, as cool as possible. Triple or, preferably pressure rinse containers before disposal. Add rinsings to spray tank or knapsack mix.

Do not dispose of undiluted chemicals on-site. Break, crush, puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots. Empty containers and product should not be burnt.

Do not swallow. Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield. Wash hands with soap and water after use.

**FIRST AID:**

If poisoning occurs give plenty of water to drink and contact a Doctor or Poisons Information Centre (*Phone Australia 13 11 26*). If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor. Additional information is listed in the Material Safety Data Sheet.

**CONDITIONS OF SALE:**
